

Let me write to you as I had
help so very much and I
believe that you can help
me in my darkness and
my suffering too
I was a man who did not
lead a very religious life on
earth although I belonged to a
church which taught the truths
of the Bible and outwardly I
tried to conform to all the
requirements of the church and
of my church. But I soon
found that the mere outward religion
and worship does not suffice
to make a soul one with God
or to give it those qualities which
I have read is necessary to possess
in order to obtain the rewards
which the Bible holds out to
the worshippers of the Father

So you see my religion and worship
was not sufficient to bring me
into the presence of God or to

Jesus had promised to the faith-
ful and it tells you that it was
not only surprised but disappointed
that it did not find myself
in heaven when I came into the
spirit life.

I am in a condition of
continued darkness and
suffering for sometimes I see
the light that comes from the
higher spheres and occasionally
I am comparatively happy but
I am not satisfied and I want
more light and more love
so if you can show me the way
to this light and love I will
be greatly obliged.

My name was George F
Estorm and I lived and died
in Chicago in 1909.

I have made my request to
you and he says he will tell
me and I am going with
him so I will say good night
